I have nearly a decade of hands-on experience in both acquisition and finishing, having worked around the world in often challenging environments. My camera skills span cinema, ENG, sport, and drones, proving adaptability and versatility for any type of production.

I am also an accomplished finishing editor and colourist, with credits on projects such as Netflix, Twickenham and Shepperton Film Studios. Whether living out of a suitcase or working out of a Peli case, I thrive on the road or in a suite, fully at home in both.

EXPERIENCE

CAMERA	FINISHING	TRAINING	QUALIFICATIONS
